

NO WORD FROM  
GIANT AIRSHIPWhereabouts of Walter Well-  
man's Craft Unknown.

## WIRELESS CALLS UNANSWERED

Ocean Vessels Vainly Endeavor to  
Get Into Communication With the  
Dirigible Balloon, Which Is Sup-  
posed to Be on Its Way to the Brit-  
ish Isles.

New York, Oct. 18.—Over the waste of the Atlantic, in a position which can only be broadly approximated as somewhere off the coast of New England or Nova Scotia, Walter Wellman's airship America is in all probability pursuing its lonely flight in the general direction of the northern steamship line whose ultima thule is the British Isles.

In the absence of any direct word from the air navigators, or of any positive information whatever since Sunday noon as to their fate, the most reasonable conjecture in the minds of their friends and supporters is that they are still pointing toward their goal. It is the natural contention that lack of definite news by no means detracts from the hopeful outlook, and that the failure to receive a message implies merely that either no steamship has come within the America's wireless radius or that she is conserving her electrical resources for a supreme struggle against obstacles to come.

As nearly as can be computed, the great balloon, if it has met no untoward accident, ought to be in the neighborhood of Sable Island, with Cape Race, 350 miles away, as the next and last stage in the voyage before the final turn across the open seas.

## Wireless Calls Not Answered.

The widespread interest in the voyage finds its most striking expression in the tireless efforts of incoming steamers to get into wireless touch. All day a procession of liners approaching the western coast have sent out the prearranged call, "W," but no answering sound reached them. Comforting news was the assurance that fair weather has ruled since Sunday along the North Atlantic steamer route and that "moderate westerly winds and fair skies" was the forecast for some time to come.

The most definite information on which the position of the airship might be more accurately determined came in a late opinion from the weather bureau that she may have been forced south of the desired route by the northwesterly winds which have blown since Sunday. This theory would also account for the peculiar absence of word by wireless, despite the wide range in latitude of westbound ships.

All wireless stations along the Atlantic seaboard from St. John's north to the remote Canadian points are awake for any message, but no flash has come out of the east.

## NEWS ANXIOUSLY AWAITED

Families and Friends of Those on the  
America Worried.

Atlantic City, N. J., Oct. 18.—News is being anxiously awaited here by the families and friends of men aboard the America as to whether they will attempt a dash for Europe or return to this city ahead of the easterly wind now prevailing. Leroy Chamberlain, son-in-law and secretary-manager for Walter Wellman, said that, so far as he can learn, the America is now somewhere south-southeast of St. Pierre. He declared his belief that Wellman and his party would decide before daylight whether to attempt a desperate trip over the ocean or return to America.

The hangar here will be kept in readiness to receive the America should Wellman and his men decide that it is impracticable to attempt the voyage for Europe.

No message has been received from the America by Mrs. Wellman or others.

The wireless operator here has prepared to remain in the wireless station all night in hope of securing news of the America and her crew.

## Darrow to Assist Deitz.

Milwaukee, Oct. 18.—Clarence Deitz and Herman Voigt have left Milwaukee for Hayward, where Clarence Deitz will face a preliminary hearing. Mayor Emil Seidel has received the assurance of Clarence Darrow, the Chicago attorney, who defended the Western miners in the Governor Steubenberger murder, that he will assist John F. Deitz in his coming trial.

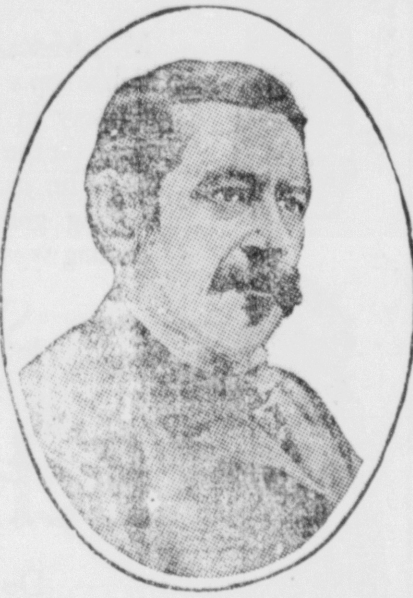

## Girl Kills Her Sister.

Fergus Falls, Minn., Oct. 18.—Irene Amundson, six-year-old daughter of Mr. and Mrs. Amundson, living a short distance west of Rothsay, discharged a small rifle while playing with it, and the bullet struck her little sister Alice in the left side and passed directly through her heart, causing instant death.

## Her Cooking.

The Doctor—How is your appetite? The Patient—Wretched. The best meal my wife cooks doesn't tempt me. The Doctor—Um—er—er—do you ever try a meal in a restaurant?—Chicago Herald.

## PREMIER BRIAND.

He Took Stringent Measures  
to End the French Strike.

## PHILADELPHIA WINS FIRST

Easily Defeats Chicago in World's  
Series Game.

Philadelphia, Oct. 18.—In a clean and sharply played game the Philadelphia American league baseball champions defeated the Chicago Cubs, the premier team of the National league, at Shibe park by the score of 4 to 1. It was the first contest of the series to decide the world's championship. Nearly 30,000 persons saw the game.

To Charles Albert Bender, the Chipewia Indian pitcher, and to Frank Baker, the third baseman, the Philadelphia team largely owes its victory. The "chief" never showed better form and Baker's valuable contribution was his hard and timely hitting. On the other hand, the American champions found overall rather easy and, after the third inning, Manager Chance was compelled to retire the star pitcher and send McIntire to the box. The latter promptly stopped the Athletics and held them without a hit until the eighth inning, when Baker landed on one of his curves for a terrific smash to the right field wall for two bases.

BANK ACCOUNTS  
WERE VERY LARGEYet Salaries of Railroad Offi-  
cials Were Moderate.

Chicago, Oct. 18.—The bank accounts of six former Illinois Central railroad officials, whose names have been mentioned in connection with extensive car repair frauds, were introduced as evidence in the trial of Frank B. Harriman, Charles L. Ewing and John M. Taylor in the municipal court. Counsel for the prosecution said that William Renshaw, receiving a salary of \$7,000 a year as superintendent of machinery, had deposited \$558,605.12 in four years. In substitution of this statement, the prosecution submitted Renshaw's account with the Illinois Trust and Savings bank of Chicago.

The prosecution next submitted accounts showing that Charles L. Ewing, who received a salary of \$5,000 a year from the Illinois Central, had deposited \$226,065 in a period of about five years.

Lawyers for the railroad company stated they were unable to submit complete figures for Ira G. Rawn, because the Continental and Commercial National bank had not yet produced accounts ordered by the court.

In nearly every case the bank accounts of the former Illinois Central officials have been closed. In one or two instances a small balance remains.

The accounts, covering the period from December, 1905, or January, 1906, to about the middle of the present year, show deposits as follows to these six men:

William Renshaw, \$558,605.12; Frank B. Harriman, \$295,894.30; Charles L. Ewing, \$226,065; Joseph E. Bukor, \$167,130.69; Ira G. Rawn, \$105,812; John M. Taylor, \$22,151.

Of these six men, Rawn received, first, \$13,000 as general manager of the railway, and later, \$20,000 a year as vice president; Harriman was paid \$10,000 per annum, Renshaw's yearly salary was \$7,000, Ewing's salary was \$5,000, Bukor got \$5,000 per year and Taylor's salary was \$3,900.

## INVOLVED INNOCENT MAN

Phase of Thief's Confession of Guilt  
Found to Be False.

Aberdeen, S. D., Oct. 18.—Grover C. Lothrop, proprietor of the Olsen rooming house at Moberg, S. D., is the victim of a peculiar charge. A Walker was recently arrested in Walworth county on a charge of having stolen \$400 from a station agent at Timber Lake. On being taken to Selby, Walker acknowledged stealing the money, and said he was a half-brother of Mr. Lothrop, and had given the Moberg man \$20 and his watch.

Railroad detectives who heard Walker's story hastened to Moberg and interviewed Lothrop, and it was with difficulty that the Moberg man convinced the detectives that he not only was not related to the thief, but the only money he had received from Walker was \$10 which Walker owed him for room rent, and that had been paid before the Timber Lake theft was discovered.

FORMALLY CALLS  
OFF THE STRIKECommittee Ends the Labor Dis-  
pute in France.

## BROKE BACK OF MOVEMENT

Then Premier Briand Successfully Arranged a Practical Settlement, Whereby the Chief Demands of the Men Were Met—Strikers Not Blamed by the Police for Bomb Outrages.

Paris, Oct. 18.—The strike committee of the railroad union at a meeting formally called off the strike of the railroad employees, which has extended over several of the most important systems in France. Work will be resumed on all lines.

The collapse of the strike was due primarily to the stringent measures taken by Premier Briand, who called to the colors the majority of the strikers, thus compelling them to do service as reservists. The premier also placed under arrest many of the strike leaders and used the military forces without restraint for the protection of life and property. After having broken the back of the strike, M. Briand successfully arranged a practical settlement, whereby the chief demands of the men were met.

A serious situation arose through the throwing of bombs and attempts at train wrecking, responsibility for which the strikers denied. According to the police, these outrages were planned by the anarchists and fighting revolutionists, who hoped to take advantage of the strike situation to terrorize the people. The entire press in France, with the exception of certain revolutionary organs, was opposed to the strike and supported Premier Briand.

The bomb outrages in connection with the strike reached a climax in an attempt to wreck a passenger train at Versailles. A bomb was thrown at the entrance of the tunnel to the Chantiers station at the moment when a passenger train was due from Dreux.

## Struck Limb of a Tree.

The bomb struck the limb of a tree, and, bounding off, landed beside the tracks with a terrific explosion. It tore a great hole, sending up showers of earth and fragments of the iron of which it was constructed.

A group of soldiers guarding the tracks nearby had a narrow escape from injury. They report having seen three persons on the bridge just before the explosion. Neither the tracks nor the tunnel was damaged. The train from Dreux arrived a few minutes later and continued on its journey.

So great was the force of the explosion that all Versailles was shaken. Thousands of people rushed to the scene of the outrage and police guards were immediately strengthened all along the line.

This and other outrages have aroused the public and spurred the police and military authorities to new efforts. The police attribute the bomb throwing to anarchists and fighting revolutionists. They do not believe the strikers are responsible, and the frequency of the attempts convinces them that they are confronted with a far-reaching conspiracy on the part of the anarchists, who are taking advantage of the strike agitation to destroy property and terrorize the public.

Attempts at train wrecking are reported from various parts of France and serious catastrophes have been narrowly averted.

The express from Marseilles for Nice was derailed and the working parts of several trains were found to have been tampered with. Half a dozen bombs have been exploded in the city of Paris, and, although the damage done has been slight, the people are apprehensive.

## WOULD STOP ALL GAMBLING

Deadwood and Lead Will Try to Drive  
Out Gamblers.

Lead, S. D., Oct. 18.—All gambling in Lead and Deadwood is to be stopped and the saloons in both cities must observe the state laws to the letter. This is the dictum of the Lead City council, it being understood that Mayor Adams of Deadwood agreed to co-operate with the move in this city.

Saloons must close promptly at 11 p. m., must remove all screens and other obstructions and live up to the anti-ferret law, which has not been enforced here. Gamblers are to be told that their business is at an end.

This step has been expected some time, but was a surprise coming before election, and politicians in both parties are wondering how it will affect the results next month, as the saloon and gambling element are divided in their support of county candidates.

## Two in Jail for Holdup.

Platte, S. D., Oct. 18.—Two strangers, who give their names as P. S. Stewart and Jim Wilson, have been arrested here on the charge of holding up O. V. Westenberg of Platte. Westenberg was returning to his home late at night when two men suddenly appeared and demanded that he surrender his money. Westenberg did not chance to have any money with him, so lost nothing.

## The Best Way.

There is always a best way of doing everything, if it be only to boil an egg.—Emerson

## MRS. MATTHEW SCOTT.

She Desires to Again Be  
Elected Head of D. A. R.

## SHE DESIRES RE-ELECTION

But Mrs. Scott Refuses to Announce  
Her Candidacy.

Washington, Oct. 18.—A lively fight for the presidency of the Daughters of the American Revolution is foreshadowed in the announcement that Mrs. Matthew T. Scott, the president officer, will be a candidate to succeed herself. Mrs. Scott's announcement is modestly made, but its significance is not lost upon the daughters who remember the close race last year between Mrs. Scott and Mrs. William Cunningham Story of New York, as a result of which it was predicted that Mrs. Scott would not be a candidate again. It is understood that Mrs. Story's friends will present her name at the next election. She was defeated by only a few votes at the last election.

Mrs. Scott has received no fewer than fifty telegrams and some 200 letters asking for information as to whether she will be a candidate. To each and all she has sent this reply: "Every president general has been accorded the courtesy of a second term. I cannot lower or cheapen a candidacy by announcing myself a candidate; my work must speak for itself. I am sure that when the proper time comes the Daughters of the American Revolution may be relied upon to choose the best woman for the place, whether that person be myself or some one else."

This letter is accepted as a notice that Mrs. Scott will seek re-election.

LONG LEGAL FIGHT  
FINALLY IS ENDEDNorth Dakota Claimant Gets  
Share of Fortune.

Boston, Oct. 18.—The longest contested probate case in the world, it is claimed, was settled when William C. Russell of Melrose declared that Daniel Blake Russell of Dickinson, N. D., was his brother and a co-heir with him to the \$500,000 estate of his father, the late Daniel Russell.

The acknowledgment was made in writing and throws out the claims of the alleged Daniel Blake Russell of Fresno, Cal.

The pending appeal of Daniel Blake Russell, which was to have been called in the supreme court today, has been put over the present term of court by mutual arrangement.

This new phase of the remarkable identity case is the result of many conferences between attorneys for both sides during the past two weeks. The negotiations for settlement were conducted at interviews held at the offices of Nason & Proctor, trial lawyers for the estate.

Berry & Upton, attorneys for the estate, were present. Dakota Dan was represented by Senator Leslie A. Simpson and his Boston associate, Attorney Nelson Sheldon.

So bitter was the probate hearing and so positive and disappointing was the court's finding that the sudden shifting of the entire aspect of the case comes as a great surprise. Just as sensational as the trial is the unusual ending, when the opponents of the ranchman asserted they have the strongest case and were supported by the probate decision.

## FOUR MINERS ARE KILLED

Bucket Overturns and They Fall Down  
Shaft.

Marquette, Mich., Oct. 18.—Four men, who were being hoisted to the surface, were killed at the Cleveland Cliff iron company's North Lake mine near Ishpeming, when the bucket on which they were seated was overturned. They were hurled 250 feet to the bottom of the shaft. The dead: Gusaf Johnson, Edward Honkala, Herman Hupala, all married, and a single man whose name has not been learned.

## Well Forged.

Joakley—I understand there's considerable talk now in naval circles about some orders that were forged very skillfully.

Coakley—Aha! Another scandal, eh? Joakley—Oh, no. They were orders for some eight inch guns.

SEVERE STORM  
SWEEPS CUBA

## JULIA WARD HOWE IS DEAD

Noted Authoress a Victim of Heart  
Disease.

Middletown, R. I., Oct. 18.—Mrs. Julia Ward Howe is dead at her summer home here.

The three daughters of the aged authoress, Mrs. Florence Howe Hall, Mrs. Laura Richards and Mrs. John Elliott, were gathered about the bedside of their mother when the end came. Mr. John Elliott, her son-in-law, also was present.

Death was due to heart failure resulting from advanced age and a severe cold recently contracted. She was ninety-one years of age.

During her many years of activity in various fields Mrs. Howe published more than a dozen volumes, including books of poems, travel, reminiscences and views of life and men.

Although Mrs. Howe's achievements in any one of a number of fields of activity have been sufficient to bring her worldwide fame it is as the author of the inspired lines of "The Battle Hymn of the Republic" that she is most intimately known to the people of her own and other lands.

Julia Ward Howe was the daughter of Samuel and Julia Rush and was born May 27, 1819. She married Dr. Samuel Fridley Howe, the eminent philanthropist, in 1843. He died in 1876. With her husband she conducted the anti-slavery paper, the Boston Commonwealth, prior to the Civil war. After the slavery question was settled she became active in advocating women's suffrage, prison reform, world-wide peace and traveled widely lecturing and preaching.

## TUNNEL WORK IS FINISHED

Homestake Company Making Progress  
on Million-Dollar Power Project.

Lead, S. D., Oct. 18.—The Homestake Mining company has just completed the four miles of tunnel work in Spearfish canyon, the hardest part of the big million-dollar hydro-electric power project that it is putting through there. The last tunnel, of which there were eight, was 4,152.3 feet in length. These tunnels were bored through the mountainside and connected. They are to be used for the water pipes to convey the water from the creek to the plant which is to be constructed below Spearfish falls and work on it will shortly commence. When this is completed the transmission lines will be laid and the Homestake will have one of the finest power plants in the West.

## Bigger Relief Fund Needed.

St. Paul, Oct. 18.—With reports coming into the governor's office of additional cases of families made destitute by the recent forest fires in Northern Minnesota, the determination has been made to put forth every effort possible to secure an adequate fund for relief purposes. Governor Eberhart was notified that thirty families in Roseau county, near the village of Calol, had been overlooked in former reports that had been sent out from the devastated district. It was said they have received no help whatever.

## Baby Burned to Death.

Cando, N. D., Oct. 18.—By the tipping over of a lighted oil stove, spraying the burning fluid over her clothing, Jessie Sands, the eight-months old daughter of Frank Sands of Crocus, was burned to death, while her fourteen-year-old sister was seriously injured trying to save the younger child.

## GRAIN AND PROVISION PRICES

Minneapolis, Oct. 17.—Wheat—Dec., \$1.04½; May, \$1.08½. On track—No. 1 hard, \$1.07½; No. 1 Northern, \$1.05½ @ 1.06½; No. 2 Northern, \$1.01½ @ 1.04½; No. 3 Northern, \$1.00 @ 1.02½.

## St. Paul Live Stock.

St. Paul, Oct. 17.—Cattle—Good to choice steers, \$5.50 @ 6.00; fair to good, \$4.75 @ 5.25; good to choice cows and heifers, \$4.25 @ 4.75; veals, \$6.50 @ 7.75. Hogs—\$8.20 @ 8.90. Sheep—Wethers, \$3.25 @ 4.00; yearlings, \$4.25 @ 4.75; spring lambs, \$5.50 @ 6.00.

## Duluth Wheat and Flax.

Duluth, Oct. 17.—Wheat—To arrive and on track—No. 1 hard, \$1.06½; No. 1 Northern, \$1.05½; No. 2 Northern, \$1.03½; On track and Dec., \$1.06½; May, \$1.09½. Flax—On track, \$2.64; to arrive, \$2.63½; Oct., \$2.64; Nov., \$2.63½; Dec., \$2.56; May, \$2.52.

## Chicago Grain and Provisions.

Chicago, Oct. 17.—Wheat—Dec., 94c; May, \$1.00 @ 1.00½; July, 96½c. Corn—Dec., 46 @ 46½c; May, 48½c; July, 49½c. Oats—Dec., 30 @ 30½c; May, 33½ @ 33½c; July, 32½c. Pork—Jan., \$17.45; May, \$16.57½. Butter—Creameries, 24 @ 29c; dairies, 23 @ 27c. Eggs—18½ @ 26c. Poultry—Turkeys, 17c; chickens, 12c; springs, 12½c.

## Chicago Live Stock.

Chicago, Oct. 18.—Cattle—Beefves, \$4.65 @ 7.80; Texas steers, \$3.40 @ 5.70; Western steers, \$4.15 @ 6.75; stockers and feeders, \$4.25 @ 5.60; cows and heifers, \$2.25 @ 6.40; calves, \$7.50 @ 10.00. Hogs—Light, \$8.65 @ 9.30; mixed, \$8.30 @ 9.25; heavy, \$8.05 @ 8.95; rough, \$8.05 @ 8.25; good to choice heavy, \$9.25 @ 9.85; pigs, \$8.25 @ 9.00. Sheep—Native, \$2.30 @ 4.30; yearlings, \$4.30 @ 5.40; lambs, \$4.25 @ 7.00.

Island Suffers Greatest Prop-  
erty Loss in Her History.

## HOMELESS AND DESTITUTE

Thousands of Peasants in the Three

Western Provinces Are in Distress.

Republic May Be Compelled to Re-  
quest International Aid for Them.

Heavy Loss in City of Havana.

Havana, Oct. 18.—The island of Cuba has probably sustained the greatest material disaster in all her history in the practically continuous cyclone which began with light rains on Thursday morning, developing into torrential floods and devastating hurricanes and continuing until last evening. The western half of the island suffered more severely than the east.

The first cyclone, of which there was some warning, had hardly abated on Sunday night when suddenly the wind, which up to then had been southeast, changed to southwest, and with renewed fury the cyclonic blasts swept over Matanzas, Pinar del Rio and Havana provinces, completing the destruction wrought by the first storm.

It is impossible to estimate even roughly the amount of the damage, which doubtless will aggregate many millions of dollars. In addition to the great destruction to sugar and tobacco plantations, many thousands of peasants have been rendered homeless and destitute by the loss of their homes and the food crops, especially plantations of corn. It now seems probable that the republic may be compelled to request international aid for them.

While all communication with the interior has been cut off, there is reason to hope that Oriente, Camaguey and Santa Clara have escaped the greatest fury of the storm.

In the city of Havana the losses probably will exceed a million dollars, mainly due to the destruction of the customhouse sheds, which were filled with perishable goods, the sinking of scores of lighters, many of them containing valuable cargoes which had been unloaded from steamers, and the submerging of about one square mile of the residential section of the city facing the sea.

## In Grip of the Storm.

For hours during the night and all through the morning Cuba was in the grip of the storm, which blew with great violence from the southwest. At noon the wind shifted to the west and the sea began to rise, the waves sweeping in upon the city. Within an hour the pounding of the waters had broken a breach through the Malecon sea wall. The waves quickly increased to mountainous height, engulfing the Malecon driveway and flooding the handsome residences facing thereon for a distance of a mile.

The waters invaded all the seaward part of the city until the section bounded by the Malecon, the Prado and the Boulevards Calzada de Galiano and Animas were several feet under water. The residents of the lower floors were driven to seek refuge on higher levels, while detachments of soldiers, rural guards, police and firemen, assisted by members of the Red Cross and fishermen, with boats which were dragged from the harbor, hastened to the submerged district and rescued hundreds from buildings that threatened to collapse at any moment.

Vedado, a residential suburb, was exposed to the full fury of the storm. The sea advanced some hundred yards inland, demolishing many small structures.

The rumor that the city had been struck by a tidal wave added to the general panic, which was allayed when the wind perceptibly abated and the water ceased to rise.

The jail, at the foot of the Prado, was completely surrounded by water and the prisoners, mad with fear, clung to the barred windows, clamorously demanding to be removed to a place of safety. It was feared for a time that the prisoners would break loose, but armed guards held them in check until the waters began to recede.

At the height of the storm the great waves broke over the ramparts of Morro castle. They rolled with terrific speed up the harbor, tumbling over the sea walls, inundating the streets in the lower part of the city, carrying away many of the small craft along the shores and swamping many lighters. All the steamers in the harbor remained at anchor.

## Minnesota Man a Suicide.

Ortonville, Minn., Oct. 18.—Willis Dale, working as a carpenter here for twenty years, committed suicide by hanging himself at the ball park. The cause of the suicide was probably ill health. He paid all his debts about town before ending his life. He was forty-four years of age.

## International Balloon Race.

St. Louis, Oct. 18.—The fifth international balloon race was launched here when ten monster aerostats, representing four countries, ascended amid the plaudits of thousands of enthusiasts. They sailed toward the north and north-west and were out of sight within a few minutes.

The Ladies Aid society of the First Methodist Episcopal church will meet with Mrs. T. E. Nitterauer, 307 Holly street, on Wednesday afternoon at 3 o'clock. A full attendance is requested as work of importance is on hand.  
The Ladies Aid of the Presbyterian church will give their annual harvest supper and sale on Thursday, Oct. 20 at Walker's hall. Tickets twenty-five cents. Come and enjoy a good supper.  
D. M. Clark & Co., the oldest installment house in the city. Established 28 years. Goods sold on easy terms. 1101R  
The secretary of the Brainerd Eagles, Henry Krause, reports having received news of the death of one of its members, Otto Johnson, who died yesterday at Duluth, aged 45 years. The deceased was married. He was formerly in business in Pequot and at one time conducted a saloon on South Sixth street.  
Dr. C. A. Magnusson will be at the Northwestern Hospital tomorrow, (Wednesday) Eyes examined and glasses fitted. Tues-1R  
Mr. and Mrs. F. C. Fisher, of Waupaca, Wis., are visiting their son, A. T. Fisher. Mr. Fisher is a retired farmer and today James M. Elder took him out to his model farm near this city, showing him the farm, his blooded cattle and pigs and all the improvements made in recent years. The trip was made in Mr. Elder's automobile.  
Johnson-Kajjala  
Judge of Probate J. T. Sanborn, last evening performed the ceremony uniting in marriage Ed Johnson and Miss Katie Kajjala, both of Cuyuna. The bridesmaid was Miss Sophia Hill and the best man was a brother of the bride, Thoma Kajjala. The groom has been employed several years as a miner at the Kennedy mine of the Rogers-Brown Ore Co. The bride has a large number of acquaintances in that town. They will go to house-keeping at once and make their home in Cuyuna.

### BASE BALL SCORE

Philadelphia Takes Second Game in World's Championship Contest at Philadelphia  
Philadelphia, Oct. 18.—Philadelphia Athletic of the American League won the second game of the world's championship series, defeating the Chicago Cubs, of the National League by the score of 9 to 3.  
The following is the score by innings:  
Chicago 1 0 0 0 0 1 0 1  
Philadelphia 0 0 2 0 1 0 6 0 x  
Cubs—3 runs, 10 hits, 3 errors.  
Athletics—9 runs, 14 hits, 2 errors.  
Batteries—Cubs, Brown, Ritchie and Kling. Athletics, Coombs and Thomas.

### HOW IT IS DONE

Miss Iris Budelman Tells in Verse How a Married Man Can Live on 18 Per  
The first prize for the best article on "How a Married Man Live on \$18 a Week," has been won by Miss Iris Budelman of 712 1/2 Laurel street, and as a result Miss Budelman gets four lower box seats to "Paid in Full" Eugene Walter's intensely interesting problem play that will be presented at the opera house on Wednesday evening. The young lady by a little thought and effort can enjoy a most delightful evening and give equal pleasure to three of her friends. Below we publish her verses:  
**The Solution of a Difficult Problem**  
The most important question, today, it seems,  
Is the common one of ways and means.  
Will eighteen dollars a week suffice  
Husband and wife to pay the price  
Of first this little bill, then that,  
And buy the lady coveted dress and hat?  
Yes and no my answer will be,  
It all depends upon the two in company.  
The query was "Can anybody do it?"  
Certainly, and if they will use a little wit  
The economical process, when 'tis begun,  
Will be little more than a continued pun.  
The wife decides a dainty meal to prepare,  
She goes to the larder to receive a vacant stare.  
"We are not very hungry today," thinks she,  
"I'll just plan a quiet, homely little tea."  
Glance comes home from work and sees  
A wife, smiling and charming as you please.  
Will he complain and begin to frown,  
When to the table he seats him down?  
The roast will rival a chicken or fish,  
Plain baked potatoes are a wholesome dish.  
Bread, more healthy than cake, rich and sweet,  
Tea is just needed the spread to complete.  
The board of the pair is thus solved you see  
To the satisfaction of the two in company.  
Now, on the question of attire and pleasure,  
That can be treated with similar measure.  
Does wife want a new gown or new cloak  
When the old one is good? What a joke.  
A brightening touch added here and there,  
What new frock can with it compare?  
Glance at hubby from his head to feet,  
He's not so dudsish, but is scrupulously neat.  
They are both ready for strolls in the park,  
A day in the woods is quite a lark.  
To the luxuries of autos they pay no heed,  
When healthy giving exercises is what they need.  
On the other hand take a happy little pair  
Who realize not the world's capability  
Just stop and listen. Hear them say,  
"We'll spend our money, be happy today.  
Next week we'll see eighteen again.  
I guess maybe this will last till then.  
What do we care if we do run bills,  
We want good times and many frills.  
Some day great luck will come, we're sure,  
This poverty business I can't endure."  
Will not each and everyone now agree,  
That a married man can quite easily,  
Live on eighteen per, if he chooses a wife.  
Who is willing to share his path in life?  
Happier each day they will grow to be,  
And "Paid in Full" are the two in company.

IRIS BUDELMAN.

### AWAY GOES ALL KIDNEY TROUBLE

Backache Vanishes and Your Kidneys and Bladder Act Fine after a Few Doses

### URINARY TROUBLE IS ENDED

No Reader of The Dispatch can Afford to Neglect Out-of-Order Kidneys for a Moment

Kidney disease is the most dangerous, because the first symptoms are seen in other parts of the body before anything wrong is noticed with the kidneys themselves.

Some of the symptoms, though, cannot be mistaken; for instance, sick, unhealthy kidneys cause thick, cloudy, offensive urine, full of sediment, irregular of passage or attended by a sensation of scalding. The back aches constantly, or there is dull misery in the sides and loins, headaches and dizzy spells may occur, nervous twitches, disturbed sleep, inflamed or puffy eyelids, weakness, bilious stomach, heart palpitations or the sufferer if often weighed down by a feeling of languor or fatigue.

The time to cure kidney trouble is while it is only trouble—before it settles into diabetes, dropsy, gravel or Bright's disease. The moment you suspect the slightest kidney, bladder or urinary disorder begin taking Pape's Diuretic as directed, with the knowledge that there is no other medicine, at any price, made anywhere else in the world, which will effect so prompt and thorough a cure.

Don't be miserable and remain in danger another moment because of a lame back or clogged, inactive kidneys or bladder or urinary misery; all this will surely go after you take Pape's Diuretic for a few days.

Your physician, pharmacist, banker or any mercantile agency will vouch for the responsibility of Pape, Thompson & Pape of Cincinnati, Ohio, who prepare Pape's Diuretic—50c treatment—sold by every druggist in the world.

NORTH BROADWAY TO BE BOULEVARDED

Council Orders in Sidewalks on North Seventh St.—Pushes Work on Thirteenth St.

ORDINANCE ADOPTED

Grading and Curbing Miles of Streets—F. H. Gruenhagen Reports on 13th Street

The first petition presented the council last night was from 24 property owners on North Broadway asking that this street be curbed and graded from the north line of Kingwood to the south line of Ivy street, the curbing be set 22 1/2 feet from the property line and that a boulevard 15 feet wide be placed in the center of the street running the full length of the block and the ends built in a half circle. They asked that the work be done this season. On motion the council granted the petition.

The petition of property owners on North street north for a cement sidewalk along the west side of lot block 198 was favorably reported by the street committee, Messrs. Dieckhaus and Zakariassen and the report was accepted by the council.

The bill for Ira Cornelius for street work, \$9.90, was allowed and ordered paid.

A verbal report was made on the progress of the roadwork on Thirteenth street. The clerk was instructed to receive \$500 from the city and to pay same to Frank Hette and also to handle all donations received on account of grading such street. F. H. Gruenhagen reported on the donations made up to date for this road improvement.

Alderman Drexler, chairman of the street committee, reported that his committee had made a favorable report on the sewer work near Fifth and Kingwood streets and recommended that the bill of Ritari Bros., \$9.00, be paid, which report was accepted.

Ordinance No. 231, establishing limits and eliminating block sewers from district, received its second reading. Alderman Drexler and Kljuquist voted no and six aldermen, Messrs. Twohey, Dieckhaus, Henning, Kjelquist, Zakariassen and Robertson.

Residents of Fourth Ave. N. E. held a meeting and voted in favor of paving that avenue with cement. Their secretary, J. N. Beiver, presented the petition. It was moved to refer it to the street committee to report at next meeting, which motion carried.

The assessment levy covering the expense of putting in lateral sewer, district No. 1, block Nos. 162, 160 and 222, between Broadway and North Ninth streets was adopted, all voting aye.

There was presented a resolution ordering the curbing and grading of streets and instructing the city engineer to prepare plans and specifications and estimate the cost which resolution was adopted, all voting aye.

The streets are as follows:

Fourth Ave. N. E. from the north line of Farrar street to the south line of Ash Ave.

Farrar street N. E. from the east line of 3d Ave. to the east line of 4th Ave.

Bluff Ave. north from the east line of Bluff Ave. west to the east line of 1st street.

Fir street from the east line of 1st street to the east line of Bluff Ave. east.

Norwood street from the west line of 5th street to the west line of 9th street.

Maple street from the west line of 1st street to the west line of 9th street.

Laurel street from the east line of 1st street to the west line of 9th street.

Kingwood street from the east line of 1st street to the west line of 9th street.

Sixth street from the N. P. Ry. tracks, main track to the south line of Juniper street; also from the north line of Holly street to the south line of Bluff Ave. north.

Juniper street from the east line of 1st street to the west line of 9th street.

Ivy street from the east line of Bluff Ave. to the west line of 9th street; also from the east line of 7th street to the west line of 9th street.

Holly street from the east line of Bluff Ave. to the west line of 9th street.

Grove street from the east line of Bluff Ave. to the west line of 9th street.

3rd street from the south line of main street to the north line of Holly street.

Bluff Ave. west from the north line of Holly street to the north line of Bluff Ave. north.

All voted aye to a resolution asking North Broadway a boulevard as recommended by the street committee.

A resolution, all voting aye, was adopted curbing, grading and paving with cement Third avenue from the north line of kindred street to the south line of Ash Avenue.

A resolution was adopted, all voting aye, for paving with cement north Fifth street from the east line of Bluff Avenue.

The two cent current proposition of the Toltz Engineering Co. of St.

AIRSHIP WRECKED IN MID OCEAN

Special to The Dispatch:—

New York, Oct. 18—A wireless message to the Times from Captain Down, of the Royal Mail Steamer, Trent, says the Trent picked up Walter Wellman and crew of the balloon America at five o'clock this morning. The airship had been abandoned. The rescue was made in latitude 35:43, longitude 68:18, five hundred miles from the main land.

Paul then engaged the attention of the council.

Alderman Henning's request to have a knoll taken out of a place on Second avenue was referred to the street committee.

W. D. McKay asked permission to make changes in a catch basin near the sidewalk adjoining the Iron Exchange building, such alterations to be made without expense to the city. The request was granted.

On motion of Alderman Henning the council adjourned to eight o'clock Tuesday evening, October 18th.

ADAM ARMSTRONG PASSES AWAY

Veteran Hotel Man Died Last Night at Half Past Six of Scurrhosis of Liver

Adam A. Armstrong, the veteran hotel proprietor of the Antler's hotel, died at half past six last night of scirrhus of the liver and dropsy. He had been ailing for about five months and recently, in order to recuperate, took a trip to Mt. Clemens, Mich., and visited the baths there. He took to his bed after returning to Brainerd and appeared to be getting better until last Thursday, when a relapse set in and he was unconscious for four days. The end came peacefully last night.

The deceased was born October 5, 1859 in Oswego, N. Y. He left there as a child and was brought up and educated in Upton, Province Quebec, Canada. At the age of twenty he came west and located in Minneapolis. It was there that he was married on January 2, 1888 to Miss Mary Wolvert. They came to Brainerd and for the last 16 years he has been engaged in the hotel business in this city. To them one child was born, Miss Eliza Armstrong, who is now 17 years of age.

Mr. Armstrong took a great interest in public affairs and served one year as alderman of the first ward of Brainerd. He was a member of many fraternal orders and belonged to the Elks, Eagles, Redmen and the Degree of Pocahontas. He was always of a kind and generous nature and his sterling qualities as a man were admired by his large number of friends and acquaintances. A sister, Mrs. Eliza Martin, has come from Upton, Can., to attend the funeral. He was an earnest member of St. Francis Catholic church and the funeral will be held on Thursday morning at nine o'clock from this church. The sympathy of their many friends is extended the family in their bereavement.

Card of Thanks

We desire to extend our heartfelt thanks to the many kind friends and especially to the Masonic order for aid and sympathy extended us during our recent sad bereavement.

Mrs. Matilda Erickson, 1161tp and Family.

B. P. O. E. Elks

The next regular meeting of Brainerd Lodge No. 615, will be held Oct. 20th, 1910. All members are requested to be present as business of great importance to all Elks is to be transacted at this meeting.

By order of,

FRED ALLISON, CHAS RATTINGER, Ex. Ruler. Secy. w-th

Change of Ownership

F. E. Low has sold his interest in the Grand theatre, transferring his stock the latter part of last week to F. H. Gruenhagen of the Slipp-Gruenhagen Co. The house for some time has been under the efficient management of Judd Wright the president of the company, and the transfer of stock will in no wise effect the management. Under Mr. Wright's management this beautiful little play house has become exceedingly popular, being crowded every night the past week to the doors. Mr. Wright is very zealous in attempting to secure only meritorious attractions believing that the best is none too good for the Grand. He stated today that he did not consider expense in securing features, as experienced had taught him that the best features although expensive, paid better with full and overflowing audiences, than ordinary attractions with ordinary attendance. He will therefore only get the best.

His Weak Point.

A man who takes a business view of things when recently asked his opinion of a person of quite a poetic temperament replied:

"Oh, he's one of those men who have sorarings after the infinite and divings after the unfathomable, but who never pay cash."

TWO CENT CURRENT OFFERED THE CITY

Toltz Engineering Co. Presents Proposition to Council at Last Night's Session

ADJOURNED MEETING TONIGHT

Street Committee and Council Get Busy on Paving City Streets—Many Petitions Read

Last night's council session had in attendance Aldermen Henning, Cardie, Robertson, Zakariassen, Drexler, Kjelquist, Dieckhaus and President Twohey. Aldermen Paine and Gardner were absent.

A large amount of routine business was transacted and miles of paving were ordered in. Everything appeared to be progressing serenely. The routine work will be detailed in another column. The clerk took up a communication and read the type written pages. The seats of the council chambers had only a dozen listeners.

The opening paragraph. "We, the undersigned, hereby propose to furnish to the city of Brainerd, for a term of ten years, all the electric current required and used by said city and the inhabitants thereof, at the rate of two cents per kilowatt hour, based upon a minimum yearly consumption of 600,000 kilowatt hours," made some of the aldermen and audience sit up and listen. One man thought Stoner had come down one quarter of a cent on his price for furnishing current to the city.

Great was the surprise of the council when City Clerk Roderick finished reading the communication and said, "Respectfully submitted by the Toltz Engineering Co., Incorporated, signed by Max Toltz, President."

Max Toltz, the president of the corporation, was at one time the superintendent of motive power of the Great Northern railway. His company has erected power plants at West Superior for the Great Northern railway and also a plant at St. Paul. At Montreal they put in a \$2,000,000 power plant for the Canadian Pacific. At St. Paul a power plant was put in for the Waldorf Box Board Co. It erected steel elevators at Duluth and Superior. At Allouez Bay it put in the great power plant at the steel and concrete docks. At Wausau, Wis., it erected the power plant for the paper mill. Another contract is the electrification of the "Dan Patch" air line, an electric interurban from St. Paul to Dubuque, Iowa. The corporation and its energetic president can point to numerous contracts fulfilled for large railways who are most critical in their tastes. The proposal of the Toltz Engineering Co. is as follows:

October 17th, 1910. To the Honorable Mayor and City Council of the City of Brainerd, Minnesota. Gentlemen:—

We, the undersigned, hereby propose to furnish to the city of Brainerd, for a term of ten years, all the electric current required and used by said city and the inhabitants thereof, at the rate of two cents per kilowatt hour, based upon a minimum yearly consumption of 600,000 kilowatt hours.

The current is to be 3-phase, 60 cycles, 2200 volts, regulated by a standard Tirrill voltage regulator.

The current is to be delivered at, and measured on a switchboard provided by the city, and located within the power station to be erected by the undersigned, within the limits of the city of Brainerd.

We propose to furnish, free of charge, the required space for said switchboard within the said power station. Meter readings to be made and taken monthly by a representative of the city and a representative of the company and the electric current paid for monthly.

The undersigned agree to furnish continuous 24-hour service, but will not be held responsible for interruption of service due to electric storms, tornadoes, or accidents beyond the control of mankind.

This proposal is made on the basis that the undersigned company will be given the exclusive right to furnish all the electric energy required by all the inhabitants of the city of Brainerd, for light and power purposes during said period of ten years.

It is agreed that at the expiration of this term of ten years, the city of Brainerd will have the option of renewing the contract for another period of ten years or of purchasing the power plant with all the appliances pertaining thereto and used in the operation of said plant at a price to be agreed upon by a board of arbitration, said board to consist of two representatives of the city, two representatives of the company, and one to be chosen by these four first mentioned.

The Power Company is to have the right to erect and maintain electric lines for the purpose of serving customers outside of the city limits, upon such streets as are necessary for this purpose.

When Merit Wins

When the medicine you take cures your disease, tones up your system and makes you feel better, stronger and more vigorous than before. That is what Foley's Kidney Pills do for you. In all cases of backache, headache, nervousness, loss of appetite, sleeplessness and a general weakness that is caused by any disorder of the kidneys or bladder. For sale by all druggists. mwf

on such streets as are necessary for this purpose.

Upon the acceptance of this proposal we agree to enter into a contract with the city of Brainerd, stipulating that current will be furnished said city on or before 90 days from acceptance of said contract. We also propose to furnish a surety bond for \$25,000 as a guarantee that we will comply with the terms of this proposal.

Respectfully submitted, Toltz Engineering Co. Inc., (Signed) Max Toltz, Pres.

On motion of Alderman Henning it was proposed to take up the light question at tomorrow night's adjourned session, which motion carried.

MORE EXPLORATION WORK

The Helmer Exploration Co. Puts in Three Drills in the Vicinity of Merrifield

Following the glad news of the increased development work instituted by the Rogers-Brown Ore Co., comes the news that the Helmer Exploration Co., has bought a tract of land near Brainerd to the north of the city and that the company has put three drills on its property.

One drill is at the old Van Horn homestead four miles from Merrifield near the Mississippi river. The other drills will be set up near by.

JUVENILE CASES TO PROBATE COURT

The Boys' Cases of Seal Breaking of Box Cars Taken From Municipal Court To

JUDGE OF PROBATE SANBORN

At Suggestion of Special Agent J. E. Williams, of Northern Pacific Railway

At the suggestion of Special Agent J. E. Williams of the Northern Pacific railway the cases brought by him against several boys for breaking the seals of box and freight cars were taken from the municipal court of Judge J. H. Warner to the probate court of Judge J. T. Sanborn.

County Attorney W. A. Fleming coincided in the suggestions made by Special Agent Williams.

The spectacle seen in the municipal court room yesterday was enough to convince any public spirited man that a juvenile court was a necessity. Here were boys brought up on the charge of breaking a window and committing other minor offenses and brought to the same room where justice is administered to adults guilty of crimes ranging from drunk and disorderly to others worse in the police calendar. There may not be much statute law on the subject, but in the absence of a juvenile court in Brainerd, it would appear that the proper place to bring these juvenile offenders, many up for a first offense, is to the probate court. Brainerd's procedure in this case will be watched with interest throughout the state.

Card of Thanks

We wish to express our thanks to our many friends, also the B. of A. Y., the D. of H., the I. A. of M. and especially our good neighbors for their sympathy, assistance and beautiful floral offerings sent during the illness and death of our beloved wife daughter, Elizabeth.

Wheels.

The earliest mention of wheels in the Bible is in Exodus xiv, 25, when the chariot wheels of the Egyptians were taken off by the Lord. But chariots are mentioned in Genesis xii, 43. But there were older nations than the Egyptians. The Chaldeans used chariots, and the Greeks—Homer's poems date from about 900 B. C.—had chariots at the siege of Troy, 1500 B. C. Probably in reality the wheel is about as early a piece of machinery as any now existing. Of course it has been developed, but the wheel of today is a lineal descendant of the section of a log of wood used by the agricultural peoples thousands of years ago.—New York American.

"MICHAEL'S"

Notice

Editors of Brainerd Dispatch:— Please give me space in your columns to correct an erroneous report that is now being repeated in the county.

Some one without a knowledge of the law has started the canard that I brought out Mrs. Hartley as an independent candidate for county superintendent of schools for the purpose of having myself appointed deputy; the salary, so the rumor goes being \$50.00 a month for the deputy, providing Mrs. Hartley should be successful. I wish to say right here that I had nothing whatever to do with Mrs. Hartley's getting into the contest, that I am not personally interested in her candidacy. Furthermore Section 1387 Laws of 1895, which governs in this case gives the county superintendent authority to appoint an assistant for not more than forty days in any one year at a salary of \$3.00 a day.

Now what would be the use of making "two bites of a cherry?" Who ever started that report certainly had poor knowledge of the law, and ought to go way back and sit down. I hope I will be out of all politics for the rest of the campaign. I am going into business for myself at 321 South Sixth street, Brainerd, where I will be pleased to meet all my old friends and many new ones. I will be glad to have you come into my place of business whether you want any thing or not. J. A. WILSON.

ADMIRATION.

It is better in some respects to be admired by those with whom you live than to be loved by them, and this not on account of any gratification of vanity, but because admiration is so much more tolerant than love.—Arthur Helps.

IT GROWS HAIR.

Here Are Facts We Want You to Prove at Our Risk.

Marvelous as it may seem, Rexall "93" Hair Tonic has grown hair on heads that were once bald. Of course, in none of these cases were the hair roots dead, nor had the scalp taken on a glazed, shiny appearance.

Rexall "93" Hair Tonic acts scientifically, destroying the germs which are usually responsible for baldness. It penetrates to the roots of the hair, stimulating and nourishing them. It is a most pleasant toilet necessity, is delicately perfumed, and will not gum or permanently stain the hair.

We want you to get a bottle of Rexall "93" Hair Tonic and use it as directed. If it does not relieve scalp irritation, remove dandruff, prevent the hair from falling out and promote an increased growth of hair, and in every way give entire satisfaction, simply come back and tell us, and without question or formality we will hand back to you every penny you paid us for it. Two sizes, 50c. and \$1.00. Sold only at our store—The Rexall Store.

#### THE KEY-NOTE SPEECH.

It is doubtful if any platform utterance ever delivered in the State of Minnesota has called forth more flattering comment than was given to Governor Eberhart's Mankato address on Tuesday evening, October 4th. From every part of the state and from the most influential men in the state, as well as the country press, was heard nothing but praise and commendation. The Governor is credited by them with having positively demonstrated that he has the mind of a true statesman and the courage to put forth his convictions in unequivocal terms. He has amply satisfied the republicans of Minnesota that they made no mistake in naming him as the chief standard bearer in the campaign now on. It must be a source of satisfaction and pleasure for those who are striving for good government and clean politics to read the following comment coming from different points in the State.

The keynote speech of the Republican campaign, delivered by Governor Eberhart at his home city of Mankato Tuesday night, was the subject of much comment yesterday.

The Republicans declared it was wonderfully strong. Democrats were not willing to discuss it.

Congressman Miller said of it: "Governor Eberhart's keynote speech was strong, logical and convincing and more than ever demonstrated that the Republicans have in him a leader capable and with the welfare of the people and the prosperity of the state deep at heart."

"A masterful address by a wonderful man," said County Auditor Odin Halden. "Governor Eberhart in that speech clearly outlined his steadfastness of purpose, his intention to stand for that that is for the best interest of people and state, demonstrated his strength as a candidate and made an incontrovertible argument for the biggest Republican victory at the polls Minnesota ever saw."

Senator George R. Layburn said: "It was a strong argument and a credit to the candidate of the Republican party for governor. It shows that Governor Eberhart is growing stronger as a candidate and an executive. The campaign this year will demonstrate that the Republicans under the leadership of A. O. Eberhart are to win by one of the largest majorities Minnesota ever saw."

County Treasurer W. A. Holgate: "The straightforward and frank way in which Governor Eberhart discussed the many questions to come before the people in this campaign can surely leave no doubt in the mind of any one as to where he stands on all of them. To my mind, the governor's speech was a very strong one, and I believe it will make him many friends and supporters all over the state."

S. W. Gilpin, candidate for judge of probate: "I consider Governor Eberhart's speech a clear and intelligent presentation of the political issues in the state at the present time. After reading the report of it I am more than ever convinced that he is alive to every public condition that demands careful consideration at this time. His fearless statements prove that he is especially well informed on the needs of the common people and the general welfare of the state. No one can question his alertness and keen insight in grasping and developing Republican principles in this state."

John H. Norton, county attorney, said: "Once again, as hosts of times before, Governor Eberhart has demonstrated his unqualified equipment and ability to occupy the executive chair of this commonwealth. He clearly outlined his stand on the principal questions of public interest, and indicated in a fearless way his intention, if elected, to stand for all that will tend to make Minnesota one of the greatest of states."—Duluth Tribune.

It is a business review of a business administration.

He makes some rather clever thrusts at the Democratic candidate and quotes from the late John A. Johnson to discredit the statements of the candidate and the Democratic platform. It is a good speech, read, and it will be approved by the people of Minnesota who prefer performance to promises.—St. Cloud Journal Press.

Frank Day, the man who is credited with bringing Mr. Gray out as a gubernatorial candidate, is credited with writing early in the campaign that "the public is getting tired of this Scandinavian business." Well it may be truthfully retorted that the public is getting most awful weary of this Frank Day business, as will be shown by the votes when they are counted. Mr. Day should remember that it sometimes is dangerous to abuse a friend just because one has got through using him.

Mr. Gray says he will not only sign a bill of county option, but he will urge its passage by the legislature in case he is elected. Think of the position in which he places himself. Of the number of democratic candidates for the legislature, ninety per cent of them are pledged to anti-option. If he and they were all elected, what effect would his recommendation have with them in the way of accomplishing what he is promising the people. It is your duty to think of these things, voters, before you cast your ballots.

If Governor Eberhart is "an accident" as Frank Day and his kitchen cabinet sneeringly claim, will some one please explain what Jim Gray is, who was nominated by Day and his cohorts and could not, by any manner of means, have been the choice of the recent democratic convention?

A Milk White Sea. Occasionally and for some cause as yet undiscovered great areas of the ocean turn milk white. In March, 1904, the passengers and crew of a Japanese merchant vessel steaming at night between Hongkong and Yokohama ran into a snow white sea, not an opaque phosphorescent surface, but an expanse of pure snow white, having a dazzling effect upon the eyes. The phenomenon lasted for six hours and alarmed the passengers so greatly that not one slept at all that night.—London Answers.

### A CREDIT TO THE STATE.

GOV. A. O. EBERHART.

In answer to the criticisms indulged in by the opposition with reference to Governor Eberhart's accomplishments during the time he has been governor, the Osakis Review of Sept. 22 makes the following reply, which cannot help but be instructive and pleasing to the voters of the state:

"Governor Eberhart's candidacy rests upon a record of exceptional value to the State of Minnesota, not alone in his official capacity but in the larger service of directing attention to the greatness of Minnesota in its resources, its achievements and its possibilities."

He has not only discharged the regular duties of his office with promptness, thoroughness and fairness to all interests and has attended all important meetings of the various state boards of which he is a member, but he has lost no opportunity to advance the best interests of the state through a wide range of speaking engagements both at home and abroad.

During Governor Eberhart's short incumbency he has addressed some of the most notable gatherings in the country—including the Convention of the Upper Mississippi River Improvement Association at Winona, the National River and Harbors Congress in Washington, the Deep Waterways Convention in New Orleans, the National Farm Lands Congress in Chicago, the Governors' Conference in Washington, the banquet of the Hamilton Club in Chicago, the National Convention of Advertising Men in Omaha and the South Dakota Conservation Congress in Pierre—on each of which occasions he delivered an address devoted to exploiting the agricultural, commercial and material advantages generally of the state.

As a direct result of these various appearances the State of Minnesota has received an immense amount of valuable publicity, the practical benefit of which can be noted in the increased demand for detailed information as to the agricultural advantages, business opportunities, rates of taxation and other matters, shown by the correspondence of the Immigration Bureau, Auditor's office and other executive departments.

In short, it has been Minnesota publicity, rather than personal or political publicity, for the Governor.

To Governor Eberhart is due in a very large measure the splendid success of the State Development and Conservation Congress of last March, which is conceded by both press and public to have done its best work in arousing the citizens of Minnesota to a full realization of the state's greatness, both actual and potential. This gathering was followed by development meetings in different sections of the state, which have already resulted in great practical benefit and to which Governor Eberhart has given his hearty encouragement.

Governor Eberhart has given particular attention to the needs of the State University and Agricultural School, exerting his influence toward extending their advantages and opportunities more widely and profitably.

Governor Eberhart has responded promptly and generously to the many demands upon his time and strength by the various commercial, agricultural and educational organizations of the state, regardless of personal and political considerations, and has come into close touch with the real needs of all classes of citizens in the state, thus enabling him to conduct the business of his office and to influence the departments under his control to the best interests of the whole people.

In the matter of appointments he

has pursued a conservative policy, selecting men on the ground of character and fitness rather than for reasons of purely political expediency. He has shown exceptional consideration for the appointees of the preceding administration, asking of them only that faithful attention to duty that the state has a right to expect; and while the public service has suffered because of the injection of partisan politics into certain departments, he has refrained from the exercise of his undoubted right to make removals for cause.

Governor Eberhart has ever been willing to co-operate with the other departments of government in securing the best results, regardless of any possible effect on his political fortunes.

He has consistently refused many flattering offers to go upon the lecture platform outside of the state, believing that he owed his entire time and all energies to the Commonwealth of Minnesota.

Governor Eberhart entered upon duties of the office under distressing and delicate circumstances, but has so conducted himself as to win the respect of the entire community and the unanimous and hearty support of the most representative Republican convention in the history of the state.

Governor Eberhart today stands pledged to a business administration of his office and in favor of every legislative policy that conduces to the common good."

#### REPUBLICANS SHOULD THINK.

To the republicans of Minnesota there are certain facts that should particularly attract their attention at this time, and they are vital facts to every voter of that party. First, the state senators that are elected in November next will, before their term expires, have a voice in the selection of two United States Senators, Senator Clapp's term expiring this coming year, and that of Senator Nelson two years later. You most certainly want those gentlemen to succeed themselves or want republicans in their places. The representatives you elect will be called upon to elect a United States Senator at the coming session of the legislature.

Then again there will be a redistricting of the state, based upon the census of 1910, and it is of the highest import that a republican Senate and House shall be entrusted with that duty to the end that there be no gerrymandering in the interest of the opposition.

Thirty-two state senators constitute a majority of the upper house, and it behooves you to think that it would take but the change of a few senatorial districts to give the opposition control of that body.

Minnesota has for the past 45 years had a good clear working republican majority, and there can be no good or valid reason advanced why the party should thoughtlessly throw away the rights and privileges that legitimately belong to it.

For six years the opposition has succeeded in purloining a sufficient number of republican votes to give it the governorship, but if we mistake not, the people now see the fallacy of such action, because they see that it is leading to other dangers and is utter foolishness on their part. Then, as stated at the beginning of this article, guard well the party interests by electing a republican chief executive in sympathy with the principles advanced by the republican party, and a legislature that will correctly voice your sentiments in the selection of your representatives in the U. S. Senate.

#### CITIES THAT PASSED 100,000 POPULATION IN 1910.

#### Good Cause For It.

"A friend of mine who visits that newly married couple saw the husband the other day throwing stones at his wife."

"Good heavens! Was she hurt?"

"Not a bit of it. She was just tickled to death. They were diamonds."

Baltimore American.

#### Criminals.

Seven can be prosecuted in England; in Germany, responsible age.

#### Drake's Death.

Some colored drawings of the coast of various West Indian islands are in the Bibliotheque Nationale in Paris. The fact that makes the drawings of special value is that they were done from the deck of Sir Francis Drake's ship under his supervision during his last voyage. There is a mournful note on the margin of a drawing of Puerto Bello, off which Drake's flagship Defiance was lying:

"This morning, when the description noted or taken of this land, being the 28 of January, 1595, being Wednesday in the morning Sir Francis Drake died of the bludie flux righte of the blande of Buena Ventura som six leagues at see."

#### Wool in Early Virginia.

Great encouragement was given in Virginia in early days to the raising and manufacture of wool. The assembly estimated that five children not over thirteen years of age could by their work readily spin and weave enough to keep thirty persons clothed. Six pounds of tobacco were paid to any one bringing to the county courthouse where he resided a yard of homespun woolen cloth made wholly in his family; twelve pounds of tobacco were offered for reward for a dozen pairs of woolen hose knitted at home. Slaves were taught to spin, and wool wheels and wool cards are found in the eighteenth century on every inventory of planters' house furnishings.

#### Bacon and the Fishers.

In "Aubrey's Lives" this quaint story is told of Lord Bacon: "His lordship, being in the garden looking on fishers as they were throwing their nets, asked them what they would take for their catch. They answered so much. His lordship would offer them not so much. They drew up their net, and in it were only two or three little fishes. He then told them it had been better for them to have taken his offer. They replied they hoped for a better draft, but, said his lordship, 'Hope is a good breakfast, but an ill supper.'"

#### Out of the Frying Pan.

They were very young, and very happy, and very foolish, and very new-wed. And they kept a kitchen garden.

"Angelina, darling," said the youthful husband, "as I was passing through the garden I saw some asparagus ready for cooking. Perhaps you'd like to go and gather the first fruit of the season yourself?"

She would love to, but she wasn't expert in horticulture and didn't want to "let on." If she went alone she might commit some egregious blunder. "I tell you what, Edwin," exclaimed the girl wife enthusiastically, "we'll go out together. You shall pluck it and I will hold the ladder."

#### Venice of Brazil.

Pernambuco is called the Venice of Brazil on account of its numerous lakes, rivers, waterways and an immense coral reef with which nature has completely encircled the city, and inside of which all but the very largest ocean vessels anchor.
